INNOVATION OF MEDIKBIO

Design Innovation

MEDIKBIO medical designer have always maintain close communication with medical service providers, to help them providing better solutions to their patents.
With long-standing experience in product structure and functional experience, MEDIKBIO continue to forget ahead with innovation and play a vital role in helping medical service providers to improve the quality of care

Research Innovation

MEDIKBIO medical owns independent reserch an development center. since its inception every year MEDIKBIO invest 10% of its annual sales in R&D, launched 10 new product, and applied at least 10 patented technologies in an average basis, which lead MEDIKBIO to continuously define the quality if medical product and new standards of efficiency

Manufacturing Innovation

MEDIKBIO medical, as a pioneer in the field of medicaal furniture, always choose branded suppliers strctly to ensure the the safety and reliability of raw material. MEDIKBIO adopt robot welding, automatic epoxy coating, efficient assembly line, dedicated operaator, rigorous quality control, only to guarantee MEDIKBIO's commitment on quality

Maintenance Innovation

MEDIKBIO medical have more than 50 engineers, and qualified service term that composed of professional subcontractors, trained technicians, and after sale staff. They are experienced and have excellent skills, not only to respond each service request on time, but also precaution every detail in equipment operation, always focus on product safely

Service Innovation

MEDIKBIO medical have thorogh service architecture: 7 days x 24hours online customer call canter, complate spare parts warehouse, advance CRM system, precautionary service, etc. No matter whare customer is, MEDIKBIO service will be always close at hand

Doctor–patient communication system

Rehabilitation guidance, follow-up, tracking, reminders, allowing patients to communicate with doctors through text, voice, and video anytime, anywhere, creating a mobile medical platform for in-depth doctor-patient communication.

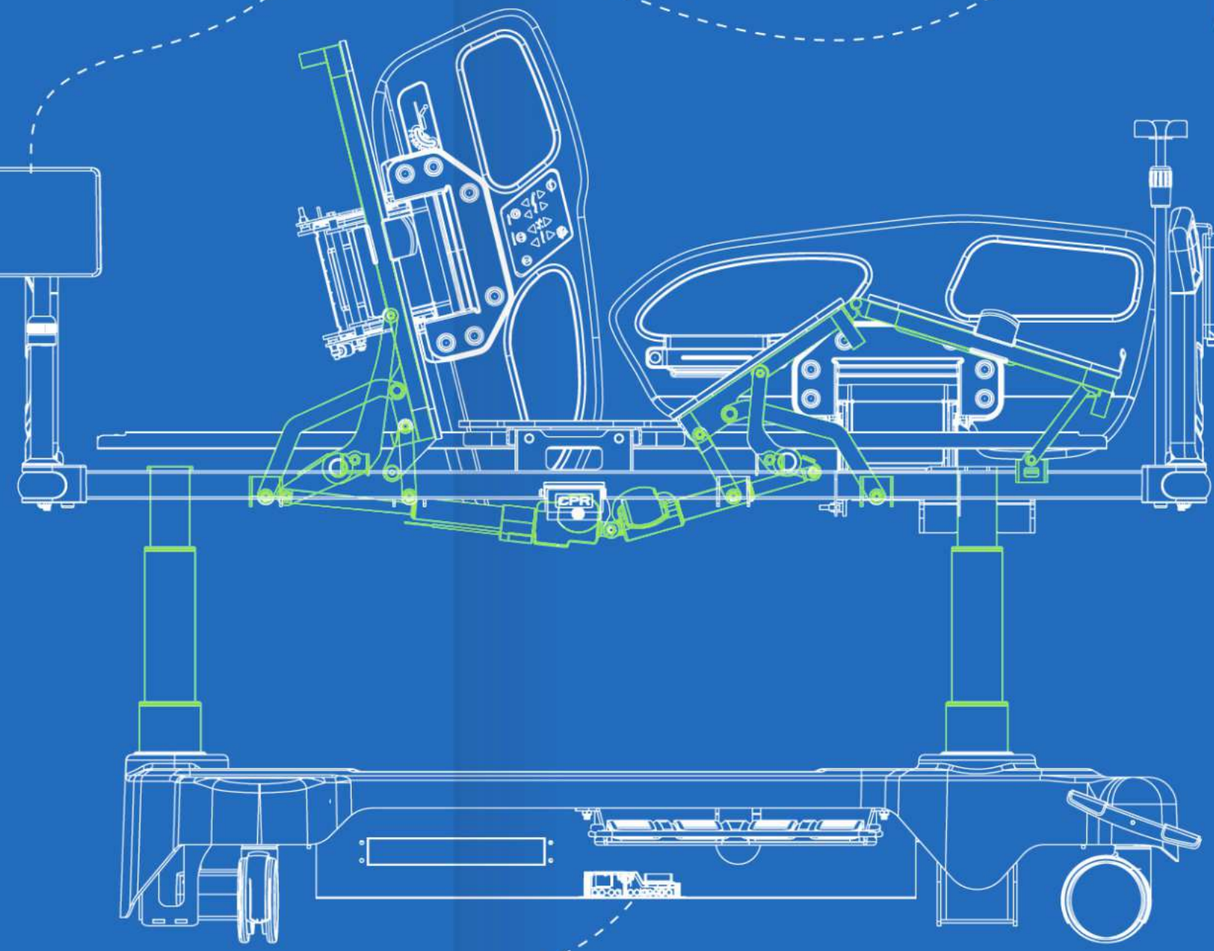
Real–time vital sign monitoring

Monitor heart rate, blood pressure, blood oxygen, respiration, temperature, pulse, etc.

Remote Monitoring System

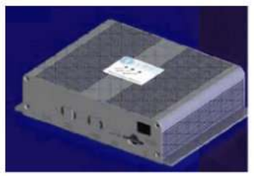
Real-time video monitoring and audio-video conversation.

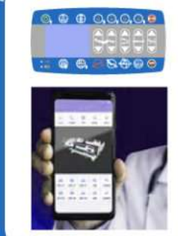
Vital Sign Monitoring
Patient 360 Monitoring
Infusion Monitoring
Video Monitoring



Equipped with Smart Hospital Bed System

Clinical data collection, screening, integration. Generate medical big data to assist decision-making.





Control system

A307

Electric-Hydraulic Operating Table

The A307 operating table is made of high-strength synthetic plate which is translucent for X-ray. It can also shift the table back and forth up to 300mm for C-arm examination of all parts of the patient's body during the operation without moving the patient.

Technical Parameters

External Length	2140mm
External Width	550mm
Table Height Min.	550mm
Table Height Max.	1050mm

Technical Configuration

√ Anesthesia Screen	1 unit	√ Leg Supports	1 pair
√ Shoulder Holder	1 pair		
√ Arm Rests	1 pair		
√ Lumbar Supports	1 pair		

A302

Electric Operating Table

SKL-A

A302 is a highly automated electric Multi-functional operating table. Its elevation, lowering, trendelenburg, reverse trendelenburg, lateral tilt, back folding, vertical translation and leg folding are all electrically operated. The operating table is equipped with a digital display hand controller to make operation easy and intuitive. With Imported large diameter castors, smooth movement, stable brake system. The standard dual control system guarantees the safety of operation.

Technical Parameters

External Length	2000mm
External Width	555mm
Table Height Min.	690mm
Table Height Max.	990mm

Technical Configuration

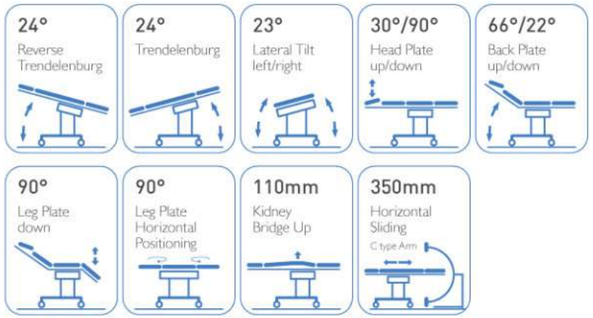
√ Anesthesia Screen	1 unit	√ Leg Supports	1 pair
√ Shoulder Holder	1 pair	√ Foot Plates	1 pair
√ Arm Rests	1 pair		
√ Lumbar Supports	1 pair		

A301

Electric Operating Table

SKL-A

A301 is a multi-functional electric operating table. Its mattress is made of polyurethane molded material, can be sterilized and cleaned at high temperature, and there are no gaps so to avoid bacterial growth. The platform is made of high-purity phenolic resin board applicable for C-arm, and can be slided up to 350mm in one direction. The X-ray photography can carry out the whole body radiography examination without moving the patient, no blind spots or shadows.



Technical Parameters

External Length	2000mm
External Width	555mm
Table Height Min.	730mm
Table Height Max.	980mm

Technical Configuration

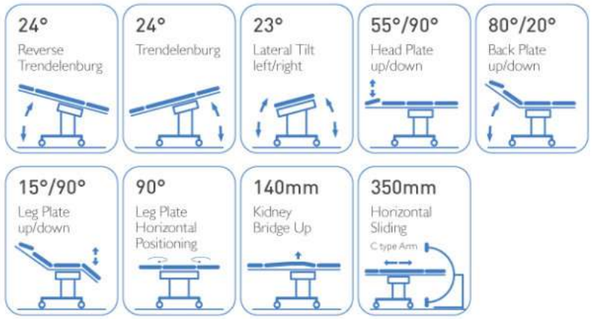
√ Anesthesia Screen	1 unit	√ Leg Supports	1 pair
√ Shoulder Holder	1 pair	√ Foot Plates	1 pair
√ Arm Rests	1 pair		
√ Lumbar Supports	1 pair		

A100-4A

Electric Operating Table

SKL-A

A100-4A is an electric operating table with super load-bearing and extra-long sliding distance , which can be applicable for C-arm. The built-in large-capacity battery can continue to support all operations in the event of a power failure. And the operating table adopts a dual-control system to ensure the safety of the operation.



Technical Parameters

External Length	2115mm
External Width	550mm
Table Height Min.	710mm
Table Height Max.	1010mm

Technical Configuration

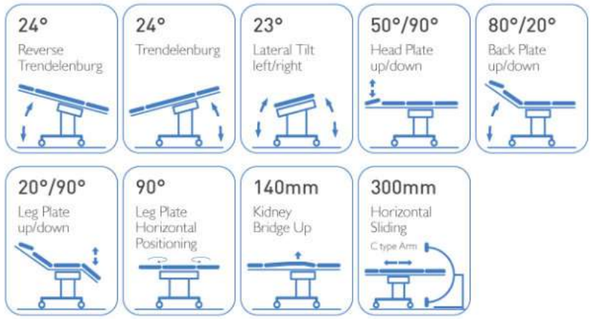
√ Anesthesia Screen	1 unit	√ Leg Supports (with straps)	1 pair
√ Shoulder Holder	1 pair	√ Foot Plates	1 pair
√ Arm Rests (with straps)	1 pair		
√ Lumbar Supports	1 pair		

A100-4

Electric Operation Table

SKL-A

A100-4 is an electric operating table that can meet the needs of various surgeries. It is driven by low-voltage DC motor, with safe and stable performance. Super wide table top, super long sliding distance. It can be applicable for C-arm. It has a high level of automation, low noise, strong reliability, and imported original parts for key parts. It is a perfect and ideal operating table.



Technical Parameters

External Length	2080mm
External Width	550mm
Table Height Min.	700mm
Table Height Max.	1000mm

Technical Configuration

√ Anesthesia Screen	1 unit	√ Leg Supports (with straps)	1 pair
√ Shoulder Holder	1 pair	√ Foot Plates	1 pair
√ Arm Rests (with straps)	1 pair		
√ Lumbar Supports	1 pair		

A501

Electric-Hydraulic Operating Table

A501 is an advanced, multi-functional electric-hydraulic operating table. Its table top is made of high-strength synthetic board and can transmit X-rays. In addition, the platform can be equipped with a 180°rotation function to realize head and leg interchange, which is applicable for C-arm perspective and placement of some special positions.

Technical Parameters

External Length	2125mm
External Width	550mm
Table Height Min.	630mm
Table Height Max.	980mm

Technical Configuration

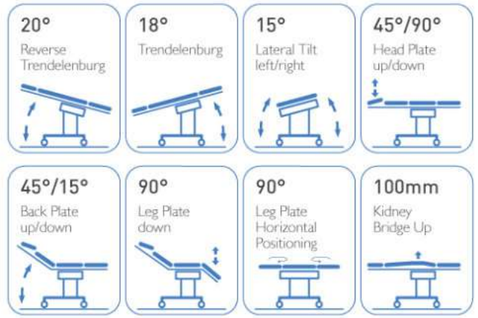
√ Anesthesia Screen	1 unit	√ Leg Supports	1 pair
√ Shoulder Holder	1 pair		
√ Arm Rests	1 pair		
√ Lumbar Supports	1 pair		

A2000

Electric Operating Table

SKL-A

A2000 is a basic electric operating table with a very high cost effective, it can fulfill the requirement of general surgeries. Its built-in battery can continue to support all operations in the event of a power failure.



Technical Parameters

External Length	2050mm
External Width	480mm
Table Height Min.	680mm
Table Height Max.	930mm

Technical Configuration

√ Anesthesia Screen	1 unit	√ Leg Supports	1 pair
√ Shoulder Holder	1 pair	√ Foot Plates	1 pair
√ Arm Rests	1 pair		
√ Lumbar Supports	1 pair

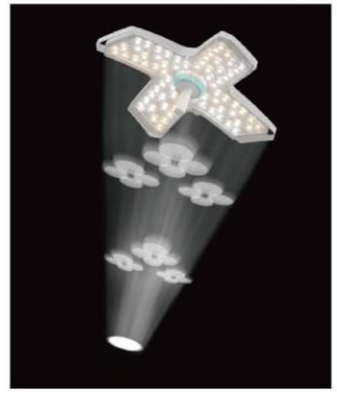
Alnno LED operation lamp

Bulb

OSRAM LED bulbs with 72 beads and 24 triangular lenses per head, providing long-lasting, bright, and uniform illumination.



Color Temperature&illumination

Advanced LED cold light with up to 160,000 Lux, 10-level adjustment, and 3500–5500K color temperature for soft, non-glare illumination.

5-inch Extra-large LCD

5-inch large LCD with simple interface, 30° adjustable angle, and seamless design for easy disinfection.

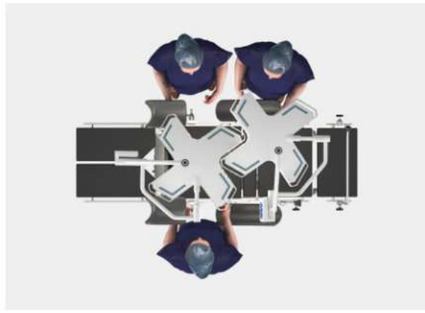
OSRAM

Hours	Kelvin	Angle Adjustment
60000	3500-5500	±30°

SHADOW MANAGEMENT

Everything has been designed to enable the medical team to focus exclusively on the surgical operation thanks to the perfect shadow dilution. A large number of individual divergent light beams create a complete light patch, ensuring that the light field will remain circular and shadow-free. Alnno Light20 provides the best illumination, even when surgeons are blocking the LED.

The head of the lamp is windmill-shaped, Saikang's unique (appearance patent) design.
The back is equipped with a soft ambient light.
The top offers a soft ambient light, simple and stylish while also being useful for low-light surgery (laparoscopic).
Exceeding the infection control standards of modern operating rooms.



User friendly for multiple surgeons and nurses at the same time

Head insert design: No heating over the surgeons head (max. Allow is 1C°)

AInno /series

LED Operation Lamp

Operating Handle

Detachable PPSU operating handle, heat- and pressure-resistant for safe steam sterilization.

Intelligent Shadow Management

Smart sensors adjust lighting to eliminate shadows and maintain clear visibility.

Lighting Mode

It has three lighting modes (standard, endoscopic, and low-light), as well as red light compensation, green light compensation, and shadow compensation.

STANDARD

ENDOSCOPIC

LOW-LIGHT
